Social Studies One-Pager

One-Pager (n): a 1(ish) page exploration of a person, event, topic, or text.

Task: Create a one-pager that explores a topic, person, place, event, or idea connected to your social studies unit. Your one-pager should help someone unfamiliar with the topic understand what it is, why it matters, and how it connects to what we're learning in class.

Instructions:

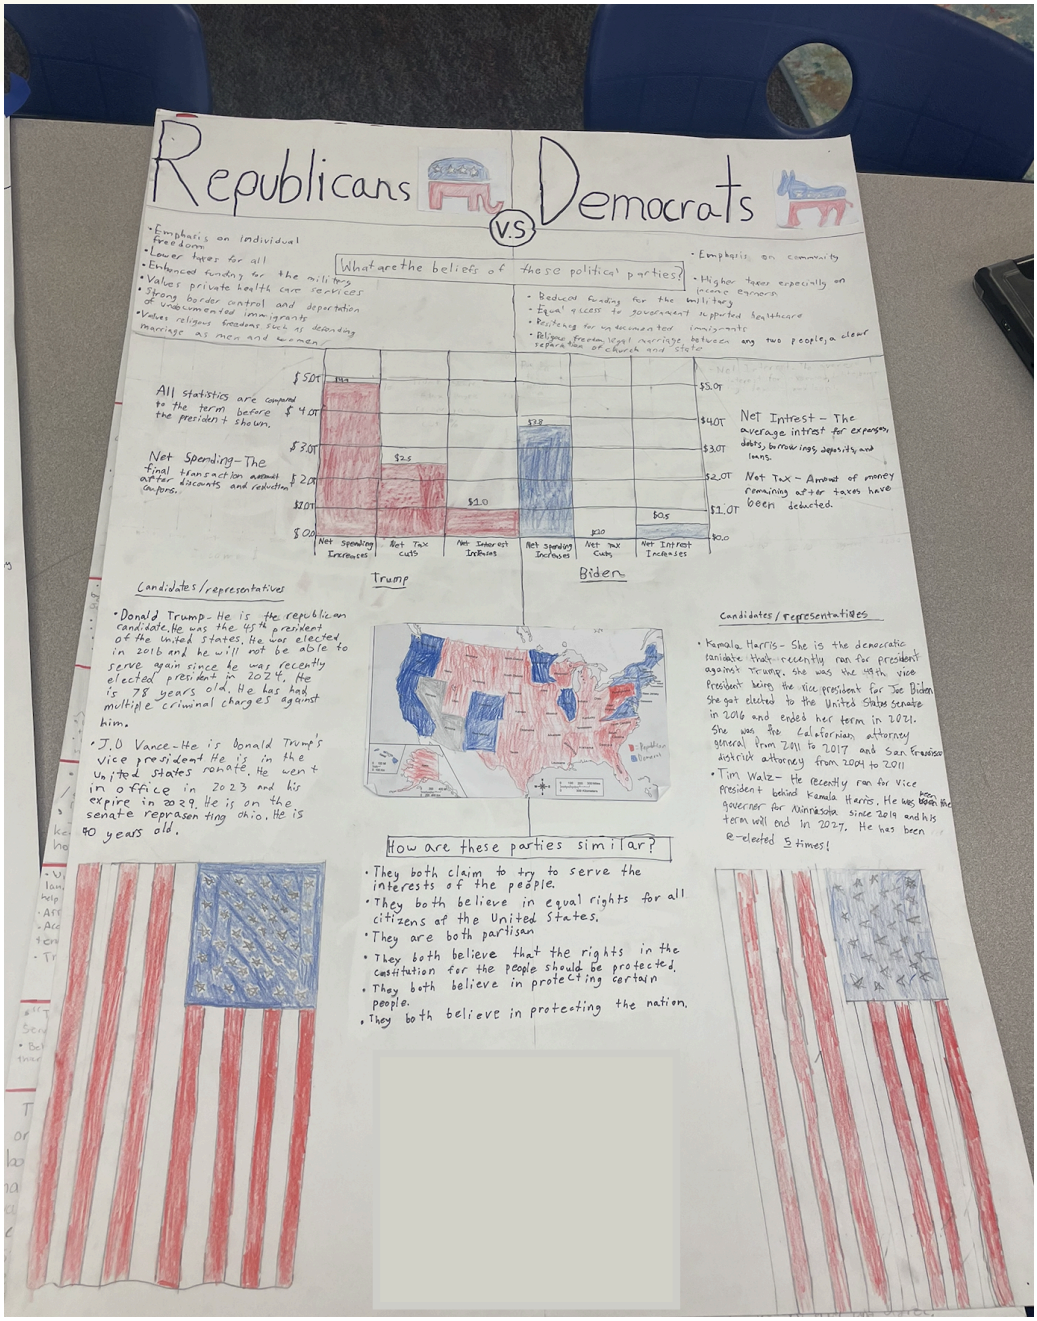

1. Choose a topic connected to your current social studies unit. Identify a specific focus or lens to guide your one-pager.
2. Use class resources and additional research to gather information, evidence, and examples that help explain your topic.
3. Organize your findings into a one-page spread using a combination of writing, visuals, and creative organization techniques. Your goal is to teach someone else about your topic!
