Study a WAGOLL

Task: Find a professional example, or W.A.G.O.L.L. (*What a Good One Looks Like*), of something you're working to write or create. Use this activity sheet to analyze the techniques and moves the creator uses, then consider how you might apply those strategies to your own work.

Part One

Study a WAGOLL Use the guiding questions below to identify 3–5 choices or techniques you notice in the WAGOLL. Think about how these choices help the creator communicate their message and which strategies you might apply to your own work.	
What types of information or ideas does the creator include in this work?	
How does the creator structure and organize their ideas & information?	•
How does the creator use language, style, punctuation, and word choice to communicate their message?	•
How does the creator use evidence to support their ideas or argument?	•
How does the creator provide background information or context to help the audience understand their message?	•

How does the creator use visuals or media to strengthen their work?	•
Does the creator use any outside sources? If so, how does the creator cite or credit their sources?	•

Part Two

Apply What You Learned Choose 2–3 techniques or moves you noticed in the WAGOLL that you want to try in your own work. Use the table below to plan how you'll apply them.		
What Move Will You Borrow *Identify a specific technique or writer's choice you noticed in the WAGOLL.*	Why Does It Work *Explain how this move helps the creator communicate with their audience.*	How Will You Use It *Describe how you might adapt this move for your own project.*
