Evidence Strategy: Discuss Your Evidence

Task: Sometimes it's easier to talk about our arguments than write about them. Use this tool to use talking to help you get words on the page.

1. Go through your argument. Find each idea and piece of evidence that supports it. Record it on the table below.
2. Then, find a partner + give them this table.
3. As you talk about each idea and piece of evidence you plan to present, your partner will jot down the explanation you give. (It doesn't need to be word-for-word! Even a bulleted list of main points will be helpful!)
4. When you are finished, your partner will return your table to you, and you can use it to support your writing!

Idea	Evidence	Explanation
