Grab-N-Go

WAGOLL Must/Might Chart

1. Read each WAGOLL as a reader for the purpose of comprehension.
2. Study each WAGOLL as a writer – how is this piece of writing put together? Notice elements of the WAGOLL that feel important, intentional, or on-purpose.
3. Now, consider the patterns that have emerged:
    - If a writing move is used in every WAGOLL you study, add that move to the MUST side of the chart. *This is something your own piece of writing absolutely needs to have*.
    - If a writing move is used in just one WAGOLL, add it to the MIGHT side of the chart. *This is something you might choose to do in your own piece of writing but do not have to do*.

Writing in this genre MUST …	Writing in this genre MIGHT …
